I sure do hope this is a long night  
'Casue I've never felt one so right  
Each look into your eyes and fall in  
A little more and more

Looks like we started us a fire  
Wrapped up in flames of desire  
With every touch their burning higher  
Two shadows dancing on the walls

With nothin' on but the radio  
Feel the music playing soft and slow  
You and me and the lights down low  
With nothin' on but the radio

We'll fall asleep here in the moonlight  
In tangles sheets we'll be here all night  
And when we wake up in the morning  
We might stay like this all day

Two people meant to be together  
Two lovers dreaming of forever  
Man, it just keeps on getting better  
With every tender little kiss

And, nothin' on but the radio  
Feel the music playin' soft and slow  
You and me and the lights down low  
With nothin' on but the radio

Two people meant to be together  
Two lovers dreaming of forever  
Man, it just keeps on getting better

With, nothin' on but the radio  
Feel the music playin' soft and slow  
You and me and the lights down low  
With nothin' on but the radio  
You and me and the lights down low  
With nothin' on but the radio
