From video and live show... Not in album yet.

Well, I took down a picture
I keep you in a picture in a frame on the wall
Tryin' to forget her
But I still have the picture
I guess that says it all.

You and me were happy
In the first home that we owned
Now it's just a memory I take out when I'm alone
When I'm alone.

I can feel your soul in everything around me
Well, I wake up now before I hit the ground
With the trust I never had before I found you
And the high I had before you let me down
You let me down.

Tryin' to remember our very first September
And the fire in your eyes
All the love you gave me
I guess you sort of saved me
All by telling lies.

Well, I don't want to hate you
After all that we've been through
But holdin' on the good times
Is just too hard to do
'Cause you let me down.

Now I feel your soul in everything around me
Well, I wake up now before I hit the ground
With the trust I never had before I found you
And the high I had before you let me down
You let me down...
