From 'open road' album.

I have been living

I have been fooled

I have been many things but I've always been in love
with you

I have been travelling

Eating life's food

Though I've been far away

I have still remained in love with you

I've been given a chance to share my music with the
world

Soon my song will be over

'till I sing the song of love

For me and you

I've been sharing with the world my songs of love

Well baby I have been learning

I have been used

I have been sheltering within this plenty world of love I
share with you

I've been given the answer

I've been given words of love

I've been given the reason

And the reason I've been sharing with the world

I've been sharing with the world my songs of love

That's why I'll always be in love

I will always be in love

I will always be in love with you

Always be in love

I will always be in love

I will always be in love with you
