Oh, oh yeah I miss all, all your love.
Oh, yeah yeah. I miss all, all this now.
I think that I found the truth, I think that love is no more
Without explaining love it made its move
Said goodbye and walk through my door
Chorus
I miss pain, I miss hope, I miss change now you're gone
I miss all, all your love.
I miss days, I miss nights, making up when we fight
I miss all, all this now.
On the sky, I've never seen so grey

It's been grey for so long
So god forgive me, I never used to pray
I've been praying every night, girl, since you've been
gone.
(Chorus)
All you said and all you did, It's all your loving that I
miss
All, all your love
All your love and all your hate, but give it up this
mistake
All, all this now, yeah.
Without explaining love it made its move
Said goodbye and walked through my door
(Chorus)
