Verse 1

Don't know this feeling inside of me,
But I know it's here for wrong not for right,
Don't know what your heart is telling me,
Everytime I ask you turn out the lights,

Bridge1

I wait around endlessly,
I look for love I can't see,
Each night I watch while you sleep.
Where are you now when I fall?
I'm trapped inside these four walls,
Somebody answer my call.

Chorus

Let's make a new beginning,
Don't be afraid of dreaming,
This love has always been part of our lives,
We'll never stop believing,
We'll never lose the feeling,
It's not too late we can win, no baby don't give in.

Verse 2

I'll take the blame if it's gonna help,
Shoot me down 'cause I'm gonna be proud,
I get the feeling it's someone else,
Though you tell me that's the easy way out,

Bridge 2

Let's close this down make amends,
Our love was always 2 friends

Living in each other lives,
We've worked so hard to be one,
Don't know now what we've become,
Somebody help me be strong,

Chorus

Let's make a new beginning,
Don't be afraid of dreaming,
This love has always been part of our lives,
We'll never stop believing,
We'll never lose the feeling,
It's not too late we can win, no baby don't give in.

Bridge 3

Lets close this down make amends,
Our love was always 2 friends

Living in each others lives, we've worked so hard to be
one,
Don't know now what we've become,
Somebody help me be strong,

Chorus

Let's make a new beginning,
Don't be afraid of dreaming,
This love has always been part of our lives,
We'll never stop believing,
We'll never lose the feeling,
It's not too late we can win, no baby don't give in.
