

Gary Bonnett "Just A Song"

Visit "[Just A Song](#)" on MotoLyrics.com

People say I'm pretty good at what I do
I had my heart set way before I met you
Now your telling me girl that I've gotta give it up
You can't deal with it and I'm down on my luck

Chorus

Well it's just a song that I sing
It's just the way this ol guitar rings
I've been dreaming this all my life
It's everything I've been workin for
Everything I've been working for

I give this song everything that I have
Just to make this dream come true
If you could just believe in this crazy dream
I'd give it all to you

Chorus

Girl I'm down here on my knees
Cause I need you by my side
I can't do this on my own
And I hope you realized

Chorus

This is not just a song that I sing
It's not just the way this ol guitar rings
I've been dreamin' this all my life
It's everything I've been working for
Everything I've been working for
