It's been so long now  
Since I've been back home  
Damn this noise and damn these clowns  
Gotta get my ass back on the road

I'm tired of playing these songs  
Seems all by myself  
Cause when it comes to making it  
They can keep their shit on the shelf

Chorus  
Cause it's a long long long way back home  
It's a long long long way back home

Mama said boy keep that dream alive  
One day those other are really gonna realize  
So today I pack my gear and step back on that bus  
To leave these fools one more time and give it one last  
push

Chorus

So tonight I'm in Nashville in the back on a long  
limousine  
People snappin my picture, craziest thing I've ever seen  
So I'm going to say this to you, one last time  
Just mind your own damn business and stay the hell out  
of mine

Chorus x 2
