A shot of Tequila
With salt and lime
Brings me back to my younger days
When the whole world was mine

An ice cold pitcher
Of cold Bud Light
I knock'em back and run my mouth
Get to feeling right

Chorus
I've been sober two years now
Ever since that day I met you
When it comes to your lovin' babe
Your all that I want to do

Your that Ice cold beer I'm drinkin'
Your the Cuervo salt and the lime
One good shot of your lovin' babe
Just drives me out of my mind
Your the sweetest Margarita I've tasted
When it comes to loving you girl
I'm wasted

Ol Jack Daniels was a good friend of mine
He'd come around for a visit
Then we'd start a fight

But his brother Jim Beam
I really didn't like
We'd hang around and chat a bit
Then shoot out the lights
