We planned this life together  
Around these solum vowels  
No doubt it would be forever  
To watch the world go round and around

Two months later  
One hot april night  
We were sitting there together  
Saw two pink lines, two pink lines

Chorus  
Now I try, yes I try  
To fall asleep  
But all, all I can do  
Is sit and think

I'm so happy  
And baby you're all a glow  
This is really happening  
And I want the whole world to know  
Whole world to know

Four months later  
I love the way you look  
With our baby in your tummy  
And you wearing my shirt  
Wearing my shirt

Chorus

One month later  
Something when so wrong  
I'm not sure what happened  
Our baby couldn't hold on

Chorus Tag  
Now I try, yes I try  
To fall asleep  
But all, all I can do is sit and weep  
Sit and weep
