By Gary Chapman, Jerry McPherson

Every day somebody finds

Someone right for them

And every day they live

They live that first day

Over and over again

My someone's out there somewhere

I'm waiting here all alone

Sure hope I find her before

She finds herself a home

CHORUS:

Everyday man

Stays at home when he can

He's in love with his everyday wife

All I demand

Out of love's open hand

Is to live just an everyday life

Every day he goes work

He'd rather stay with her

And every day he comes home

He knows he'll find things

Just like they were

Later on, they'll say

Goodnight--they're right

That's what it is

I've got to find someone

To my nights good

Just like his

(REPEAT CHORUS)

Oh, oh, oh, oh

Oh, everyday, everyday man

(REPEAT CHORUS)

Oh, everyday man

He's in love, he's in love with his wife

Every day, oh, oh, yeah
