By Gary Chapman and Michael Omartian  
Where was my head  
To believe I could live without you  
And that we'd stay good friends  
Now I'm dying instead  
And my worst dreams have all come true  
And I need you back again  
That's why I'm calling  
Cause I believe  
There's hope for us  
If you can just  
CHORUS:  
Give me tomorrow  
And another chance  
To tear down this wall  
That keeps us so far apart  
Let me borrow  
Another day  
To show what my heart's made of  
Can you give me tomorrow to love  
If you can find  
Sweet reflections of you and me  
Baby, don't let them go  
Just one more time  
Let our memories all run free  
You'll see a precious love  
And we still can have it  
Cause I believe  
There's hope for us  
If you can just  
(REPEAT CHORUS)  
Baby, give me tomorrow  
I still believe  
There's hope for us  
If you could just give me, give me.....  
(REPEAT CHORUS TWICE)
