Jill, so in love
She can't think, think enough of him
She's in love with Jim
Jim, he's the same
Just the thought of her name brings a thrill
He's in love with Jill
And though the road of life is sometimes hard
It begins and ends in their front yard
They're just glad to have the others face in their view
And with God adding it all up
One and one is more than just enough
'cause in love he does something only God can do
He makes one of two
He makes one of two
Early on, we are taught
One and one is not a lot, that's true
But it's more than two
Less and greater than, they reverse in God's hand,
they do
One is more than two
And though the road of life can seem so long
It moves fast if you just move along
And it's better if you've got someone next to you
And with God adding it all up
One and one is more than just enough
'cause in love he does something only God can do
He makes one of two
He makes one of two
As long as God's adding all up
One and one is more than just enough
'cause in love he does something only God can do
He makes one of two
I want to be one of two
Amy, we are one of two
