By Gary Chapman
Out on the town
Me and my friend
We make the rounds
Then we make them again
The radio's on
It's blaring our song
Man, we sound bad
When we sing along

CHORUS:
We can laugh
We can drive
We can't sing
But we can try
We can wait
We can see
We can love
We can be
The night is warm
The top is down
We hold our heads
Like we own this town
Maybe we do
Or maybe we will
What if we don't
Who's it gonna kill
(REPEAT CHORUS)
Yeah, we can
What I grow old
If I ever do
I need to know
There's still me and you
If I forget
What we know now
Won't you come by
And remind me how
We can laugh
We can drive
We can't sing
But we can try

We can wait
We can see
We can still love
We can be
(REPEAT CHORUS)
Yeah, we can
Baby, we still can
Oh, yeah
We can, we still can
We can, yes we can
We can, we still can
We can, yes we can
We can love
We can laugh
We can't sing
We don't care
Yeah, we can
Yeah, we can
We still can
Baby, you know we can
We can, we still can
We can still love
We can still be
Be together
