How dare you accuse me of being on a leash
Just because you haven't seen me
On the town the last few weeks
You say that girl I'm seein' has somehow made me
change
But I say take a closer look
Deep down I'm still the same

Yeah, I still love the night life
Even though I've settled down
I can have the time of my life
Without leavin' the house
We have our own private parties
The good times never end
Yeah, I still love the night life
It's the best it's ever been

There may not be a jukebox, but I still love to dance
We two step ??cross that kitchen floor
Each time we get the chance
From neon light to soft white, sawdust to squeaky clean
It's different circumstances
Ah, but some things never change

Yeah, I still love the night life
Even though I've settled down
I can have the time of my life
Without leavin' the house
We have our private parties
The good times never end
Yeah, I still love the night life
It's the best it's ever been

Yeah, I still love the night life
Even though I've settled down
I can have the time of my life
Without leavin' the house
We have our own private parties
The good times never end
Yeah, I still love the night life
It's the best it's ever been

Yeah, I still love the night life
It's the best it's ever been
