Gary Glitter - Through the years

I've been thinking of my life
and what it's meant to be
I must have lived a thousand times
it's still a mystery

I've done things so untold
I wonder how I made it through the years
Through the years

Through the years

I've been thinking of the past
and thing's that I've been through
I guess, I must be built to last
Oh, what else can I do?

In your life you'd have no fears
If you had seen, what I've seen
Through the years

Through the years I was afraid that I'd fall
Through the tears when I was alone

Never let you down
Or Try to fake it
I am still around
I made it through the years

Through the years

I lived a life of dreams
and most of them came true
I play all the songs
I play them all for you

Through the laughter,
Through the tears
Through all my friends who've helped me
Through the years

Through the years I was afraid that I'd fall
Through the tears when I was alone

Never let you down
Or Try to fake it
I am still around
I made it through the years

When things were getting tougher
I knew I had all my friends
I knew I would recover
I knew I would be back again

and I always will

Never let you down!
Never let you down!

I am still around!
I am still around!

Through the years I was afraid that I'd fall
Through the tears when I was alone

Never let you down
Or Try to fake it
I am still around!
I made it through the years!
