God, I hope the Lord is on my side  
Cause I'm broadening the gap in this divide  
I have tried  
No, I have tried

It is clear  
Nothing's clear at all  
I am scared but I will follow how I feel  
On the inside  
While on the outside  
I wait for you to

[Chorus]  
Give me a reason to come back for  
I'll be right with you if you  
Give me a reason to come back for  
And I'll be right with you

Either way I'll be a better friend  
What was supposed to be was also supposed to end  
Finding closure is never easy

But this lack of sleep wont be the way I die  
And so I drive with match sticks in my eyes  
Please forget me  
Please forget me  
Holding on to long

Give me a reason to come back for  
I'll be right with you if you  
Give me a reason to come back for  
And I'll be right with you

I'm moving on  
I have waited so long  
For the courage to go it alone  
Why should I turn now I've nothing to learn from you  
I always knew I was better on my own

I look forward to looking back this way  
Maybe then I'll see how good things are today

There's no room for  
More excuses  
To get away

Give me a reason to come back for  
I'll be right with you if ya  
Give me a reason to come back for  
And I'll be right with you

Give me a reason to come back for  
And I'll be right with you if ya  
Give me a reason to come back for  
And I'll be right with you
