"When I Hear You Call"

Visit "[When I Hear You Call](#)" on MotoLyrics.com

When I look into those bright eyes
So young and always so ready to run
Then I see a change when fun subsides
And new colors start to arise
There's a hidden picture
That wasn't seen outside

When you run don't tire
Keep on reaching higher
Even when the pain and trouble bring you down
sometimes
I will see you through
I'm forever right here with you
Even when you feel you don't need me around

I will be friend forever
I will be your one big brother
Even when I see you fall
I will be your father

When I hear you call

Don't cry
This is not the end nor goodbye
But begin to know I'm with you 'til the end
And when you pray
I will hear every word you say
Answer with all my promises made
For like you, someone who's been specially made

Your friend, your brother
When I hear you call
Lift you when you fall
When I hear you call
