Towers floating on sea of ghosts;  
Downtown Los Angeles.  
Saw the Parthenon on cotton clouds  
Coming over the hill.

Ride - Downtown Los Angeles

Trapped a dragon west of Chinatown for fire-eaters up  
in Hollywood  
My little sister took a picture of God and floated away

When your hands are broken  
When your words are slipping  
Put your arms around him  
And go ... down

Hide your money in the other hand  
(Observations of a regular)  
Towers floating on a seat of ghosts...  
It's always the same, I told you
