Every time you say goodbye  
It breaks my heart a little  
And for every time of made you cry  
You know I die a little  
Because I love you...  
I love you like the thunder loves the lightning...  
Like the wind loves the rain

Every time you say goodbye  
I see the love is...  
I see the love is a strenght and a weakness

And for every time I've made you cry  
I feel the tenderness  
And the love that's between us

Oh when you're walking in the shadow of the valley  
Oh I'll be walking right beside you  
To take the darkness away...
