(P.A. Greenbaum)

I ain't never missed a woman
anytime or anyhow.
Said I ain't never missed a woman
anytime or anyhow.
I said, I ain't never missed nobody
just like the way I miss my baby now.

If you could see my woman,
you'd know why no one else can take her place.
If you could see my woman, people,
you'd realize why no one else can take her place.
You'd know just what I'm talking 'bout,
if you could see my baby's sweet, sweet face.

That's why I ain't never missed a woman
anytime or any place.
No, I ain't never ever missed a woman
anytime or any place.
When I say I ain't never missed nobody,
I mean I ain't never missed nobody
like I miss my baby now, yeah.
