There is only tomorrow  
Nothing but sorrow waiting for you  
Don't look for any mystery  
It's only history, we're passing through

The threat from the east  
Growing stronger with each passing hour  
All systems are failing  
And talks with the west have turned sour

The leaders are waiting for blood on their hands  
Playing with weapons they don't understand  
Could it be this time we'll see the end of the world

Each day brings a new danger  
Love is a stranger we used to know  
Outside, the sun goes on rising  
But we're realizing and that's not long to go

The storm clouds are forming  
Take heed of the warning to come  
The Kremlin has told every nation  
There's no place to run

The leaders are waiting for blood on their hands  
Playing with weapons they don't understand  
Could it be this time we'll see the end of the world

The end of the world  
The end of the world  
The end of the world  
The end of the world

The threat from the east  
Growing stronger with each passing hour  
All systems are failing  
And talks with the west have turned sour

The leaders are waiting for blood on their hands  
Playing with weapons they don't understand  
Could it be this time we'll see the end of the world

The end of the world  
The end of the world  
The end of the world  
The end of the world

The end of the world  
The end of the world  
The end of the world  
The end of the world

The end of the world  
The end of the world  
The end of the world
