Another time, another place  
The lonely streets where we embraced  
Then you would go without a trace  
Nothing's the same without you

Another day goes passin' by  
I sit alone and wonder why  
Sometimes it's hard, but I will try  
To live my life without you

You're in my heart, you're in my dreams  
You're everywhere or so it seems  
So many times, I've heard that song  
Hold back the tears, pretend you're strong

Another day goes slowly by  
I sit alone and wonder why  
I think of you, I start to cry  
Nothing's the same without you

Another time, another place  
The sweetness of our last embrace  
What would I give to see your face  
Nothing's the same without you

Nothing's the same  
Nothing's the same  
Nothing's the same without you
