Hey baby
lookin' good to me
hey baby
I like what I see

I' ready
I'm ready for love.
What you say we just forget the drill

Full metal jacket I'm shooting to kill

I'm ready
I'm ready for love.

Don't you know that it's cold outside?
Come on in I'll keep you satisfied.
Just like the moon up above
I'm out tonight and I'm ready for love.

I'm getting ready
I'm ready for love

I'm ready
I'm ready for love. - Move over
baby.

Hey baby
won't you tell me your sign?
What do you know it's the same one as mine

I'm ready
I'm ready for love.
You hear me knocking but you won't let me in

Open the door
honey
let the fun begin

I'm ready
I'm ready for love.

You say you will

then you say you won't

now you see it
now you don't.
Just like the moon up above

it's out tonight and I'm ready for love.

I'm getting ready
I'm getting ready for love

I'm getting ready
I'm getting ready for love.

Every day in the week I'm in a different city

Every day in the week somebody tries to hold me down.
- Your place or mine
honey -.

Don't you know that it's cold outside

come on in I'll keep you satisfied.
Just like the moon up above

I'm out tonight and I'm really
really
really
really -

I'm out tonight and I'm ready for love
I'm ready for love

I'm out tonight and I'm ready for love
I'm ready for love.
