Big world full of confusion.
Big world, ain't no illusion.
Too much information
Coming at me every day of my life, yeah.
Can't make no sense,
Seems like there's no place to hide.
Mm.

Big world full of confusion.
Can't reach any conclusions.
No matter how I try,
I just can't seem to make no sense of what's going on,
no.
Gets me so crazy,
I don't know what I can do, m-hm.

I always knew
This day would come.
I saw it comin',
I'm on the run.
I always knew
It wouldn't last.
Everything's goin' by me too fast
In the big world, in the big world.

Big house full of corruption.
So much global disruption.
Too much information
Comin' at me every day of my life.
Yes, there is.
Can't make no sense,
Seems like there's no place to hide.

In the big world.
In the big world.
In the big world.
