(Dorff - Brown)

I know you're out there somewhere
'Cause I've held you in my dreams
And I'm waitin' for the day it all comes true
So close and yet so far away
You'll be more than just a dream some day
I'll hold you in my arms but 'till I do.

Chorus:

I'll get by
I'll wait until the rivers run dry
If it takes a million years girl
I will know a million years can't come too soon
Somehow, somewhere our eyes will meet and then and
there
The sparks will set a magic night on fire
And I'll lasso you the moon.

I'll know there'll be a lot of little girl left in the lady
While the woman in her will love me all night long
I know one day she'll come to me
Some things are just meant to be
There'll be a place in time where we belong.

Chorus:

I'll get by
I'll wait until the rivers run dry
If it takes a million years girl
I will know a million years can't come too soon
Somehow, somewhere our eyes will meet and then and
there
The sparks will set a magic night on fire
And I'll lasso you the moon...
