(Gary Morris - Dottie Moore)

One star to wish on - One shining bright
But no one to share all the magic tonight
I'll take my chances, you have to be
Out in the shadows, waiting for me.

Chorus:

On this lone star night
I hear an angel cry
I'm here to hold you tight
On this lone star night.

The rain started falling or was it her tears
The wind seemed to whisper I'm standing right here
I'll always love you and love knows no time
Here in forever you're already mine.

Chorus:

On this lone star night
I hear an angel cry
I'm here to hold you tight
On this lone star night.

Someday we'll be memories
And every star will count
Until then I'll remember
The one that shinin' now.

Chorus:

On this lone star night
I hear an angel cry
I'm here to hold you tight
On this lone star night.

I'm here to hold you tight
On this lone star night..
