(Jon McElroy - Gary Burr)

You and I shine like diamonds
Separate souls from the mortal man
Bound by trust in what we believe in
Bound by faith in the promised land.

Chorus:

We all need a little shove from time to time
Just a little push when we fall behind
It feels so close from where I stand
It's one more mile to the promised land.

Down our roads othe horizon
Lie our dreams jst out of hand
In your arms well I am protected
In your love is the promised land.

Chorus:

We all need a little shove from time to time
Just a little push when we fall behind
It feels so close from where I stand
It's one more mile to the promised land...
