(Gary Morris - Eddie Setser)

Moonlight makin' shadows  
Through an open window  
You lay quietly beside me  
Midnight breeze is blowin'  
Not a word is spoken  
You know everything inside me.

A love like this just doesn't happen everyday  
The best part is it's always gonna be this way.

Chorus:

I'm gonna love you the rest of my life  
The way I love you tonight  
You held me together when nothing was goin' right  
I'm gonna hold you and I'm gonna show you  
What forever feels like  
I'm gonna love you the rest of my life  
The way that I love you tonight.

I know it ain't been easy  
Through it all you've pleased me  
Sometimes a man don't know a good thing  
I've learned from life to live it  
And love ain't love till you give it  
So I'm givin' you my everything.

And if tomorrow never comes, I couldn't care  
As long as I am here I know that you'll be there.

Chorus:

I'm gonna love you the rest of my life  
The way I love you tonight  
You held me together when nothing was goin' right  
I'm gonna hold you and I'm gonna show you  
What forever feels like  
I'm gonna love you the rest of my life  
The way that I love you tonight...
