Preacher say send me money  
And you'll go to heaven  
President's say read my lips  
All is well  
School teachers say stick it out  
And you'll be a rich man  
All that I will say  
Time will tell

Twenty years ago  
There was social conscience  
Twenty years have passed  
Now it's social hell  
The love we made  
Was free now it cost us plenty  
The truth is still the truth  
Time will tell

Chorus:  
Time will tell  
Of a new beginning  
Time will tell  
And if were near the end  
And whether loves a passin' fancy  
If we've chosen well  
Time will tell

The liberals say it's time  
To feed the hungry  
Conservatives they ain't  
Buyin' what we sell  
They say the cost is high  
And it just ain't worth it  
If only time would talk  
Time would tell us  
That the legacy we leave  
Could be a sad one  
The water it ain't clean  
In our wishing well  
And I see every color of tomorrow  
If there's time for change

Time will tell

Time will tell us  
Of a new beginning  
Time will tell  
And if were near the end  
And whether loves a passin' fancy  
If we've chosen well  
Time will tell

Cannot tell a girl to be a mother  
The flag is just my symbol  
So is the bell  
Oh liberty and freedom  
Are in danger  
We the people choose  
Time will tell

Time will tell  
Of a new beginning  
Time will tell  
And if were near the end  
And whether loves a passin' fancy  
If we've chosen well  
Time will tell  
Time will tell
