(Mac McAnally - Gary B. Baker - Quentin Powers)

She earns your love  
Every single day  
She returns your love  
Each and every way.

People say don't you play with old fashioned love  
'Cause it's hard to find you're the fool  
If you lose your everlasting love  
Makin' up your mind.

Chorus:  
What you gonna do about her  
What you gonna do about her  
She needs to know this love will grow  
You ought to do your part  
What you gonna do about her  
What you gonna do about her  
She's on your mind  
Let her know she's in your heart.

She turns for you when the night is cold  
She could learn with you how to let it show  
People say if you find an old fashioned love  
You're a lucky man don't you see  
This could be your everlasting love  
Slippin' through your hand.

Chorus:  
What you gonna do about her  
What you gonna do about her  
She needs to know this love will grow  
You ought to do your part  
What you gonna do about her  
What you gonna do about her  
She's on your mind  
Let her know she's in your heart...
