Follow the morning rain, it's pouring down my street
And just like my father said, there's no way I'll
Be like the boys in the park, drinking my days away
I'm waiting for you to come home, my son I can say
I'd be lost without you all...

So here we go chasing the dream and its running
around my mind
But just like my father said, you never know
So let the doubters frown while you push on with your
day
I'm waiting for you to come home, my son I can say
I'd be lost without you...

Oh Daddy I, won't let it show, I won't make a sound
But I want you to know, I won't let you down
I won't let you down

Now here it all comes again, knocking on my door
And just like my father said, go with it now
Don't wanna be like the boys down the park, drinking
your days away
I'm waiting for you to come home, my son I can say
I'd be lost without you...

... Oh Daddy I, won't let it show, I won't make a
sound
But I want you to know, I won't let you down
I won't let you down
I won't let you down
I won't let you down..
