Here am I
Like a target in flesh
One more time
For you to call out the dogs
Passengers
With a ticket to burn and burn and burn
You will learn
I'm still waiting for you you know

I'm a slogan, an old story,
A disease, never again
I don't like this, new anger,
These young boys, just make me laugh
This picture, I'm so nervous,
The DJ, says 'who are you?'

Look at me, I'm shaking,
I don't know if I can move

I don't need
This attention again
I've lost time
I could lose everything
You will learn
That you've nowhere to go so go
