I am the final silence  
The last electrician alive  
And they called me the Sparkle  
I was the best, I worked them all

New ways, new ways  
I dream of wires

We opened doors by thinking  
We went to sleep by dialing 0  
We drove to work by front seat  
I plugged my wife in just for show

New ways, new ways  
I dream of wires

So I press C for comfort  
I dream of wires, the old days

New ways, new ways  
I dream of wires

I am the final silence  
The last electrician alive  
And they called me the Sparkle  
I was the best, I worked them all

New ways, new ways  
I dream of wires
