

Gary Numan "Metal"

Visit "[Metal](#)" on MotoLyrics.com

Were in the building where they make us grow
And Im frightened by the liquid engineers
Like you

My mallory heart is sure to fail
I could crawl around the floor just like Im real
Like you

The sound of metal I want to be you
I could learn to be a man
Like you

Plug me in and turn me on
Oh everything is moving

I need my treatment its tomorrow they send me
Singing I am an american
Do you?

Picture this if they could make the change
Id love to pull the wires from the wall
Did you?

And who are you and how can I try?
Here inside I like metal
In you

All I know is no one dies
Im still confusing love with need
