Visit "[Your Facination \(extended Version\)](#)" on [MotoLyrics.com](https://MotoLyrics.com)

My confession  
I'll steal anything in sight or sound  
My confession  
This is the sound of fear  
And I'll fall down

I don't need it  
If you're gonna leave then do it soon  
I don't need it  
Everything you've ever seen  
I've seen before

Leave her to me  
Leave her to me

I don't suppose you ever laughed at me  
Your fascination leaves me cold  
I don't suppose you ever loved at all

I don't need it  
I don't need it

If you want it  
Every little girl is welcome here
