I saw him turn on like a machine in the park  
Saying, "Please come with me" but you've been there  
before  
I saw him whirr away into the night  
Like a nightmare on wheels saying, "Never again"

I'd give it all up for you  
I'd even be a number just for you  
The strangest living boy  
You could ever wish to see  
That's me

Yellowed newspapers tell the story of someone  
'Do you know this man?', tomorrow the cure  
Only police ever see night time for real  
Turn on the light and cry 'no more, no more'

I was standing outside your door  
Waiting for the gray men to go  
When my mind turned on me  
With a vengeance I had never known  
My own

Everyone heard the voice on the radio  
Saying, "Why move around and waste my time?"  
There are no Independents anymore  
The tape is a circle but who really cares?

I saw you behind the wall  
I even heard you laugh at me  
You disgust me tonight  
With your answer to something new  
That's you
