He raised His hand and said "They'll need a place to stand"

And created what we now call the land

He raised His hand and said "They'll need a place to fly"

And created what we now call the sky

And then He gave life to a man and a woman

And said "The rest is in your hands"

So many years have passed since these 2 people loved

3 billion, represents the children of their love

Too many tears have fallen from the eyes of the people

For whom his son had died

CHORUS:

Let's give Adam & Eve another chance

To bring their children back together

Let's give Adam & Eve another chance

To show us how to love one another

(Got to learn to love one another)

Show us how to love one another

(Got to learn to love one another)

When He created all the beauty that we see

I know He had in mind a better life for you and me

But as we grow stronger, more people hunger

Just for the right to be free

Let's give Adam & Eve another chance

To bring their children back together

Let's give Adam & Eve another chance

To show us how to love one another

(Got to learn to love one another)

Show us how to love one another

(Got to learn to love one another)

Repeat and fade
