All my life
Without a doubt i give you, all my life
now and forever
till the day I die,
you and I will share...

all the things
this changing world can offer so i sing
i'd be happy just to stay this way
spend each day with you

there was a time
when i just thought that i would lose my mind
you came along and then the sun did shine
trying to find my way.

i do recall
every moment spent was wasted time
but then i chose to lay it on the line
put the past away, put the past away, put the past away

instrumental

All my life
i will carry you through all my life
between each hour of the passing days
i will stay with you

there was a time
when i just thought that i would lose my mind
you came along and then the sun did shine
started out my way

i do recall
every moment spent was wasted time
but then i chose to lay it on the line
i want this all my life, i want this all my life, i want this all
my life, i want this all my life, i want this all life,
i've wanted this all my life...
