I

Here's to the old times and the best of new ones  
Here's to a song of glee  
Finding our way from illusions to realities  
Hoping to wake up from this madness  
Hoping to see you smile  
Pushing our way to the limit of yours and mine

Chorus:

I'm growing up, getting down  
Putting my both feet on the ground  
With all my friends behind me  
How can I go wrong this time?  
I'm growing up, getting down  
Think of reality came around  
Not just waiting for the daybreak  
Expecting the sun to shine  
It doesn't shine all the time

II.

Falling in love, falling apart  
You think it's the end of the line  
Holding hand while crying, then you'll feel just fine  
If you're thinking that you're the only one  
Well, take a look around and you'll find  
I'll be there where you are  
Then and now, I say

Repeat Chorus

Repeat I & Repeat Chorus
