Gary Stewart
"Show Me The Way"

Show me the way
To make you feel right
Never hesitate
To give some room for me
Show me the way
Into your heart tonight
And I'll be there for you
My love...girl, anytime
So many times it seems
Through thick and thin we've been
Bumpin' around, messin' ground
Almost have called it quits
But love is always on top of it all
Thicker and stronger we go
'Coz we made a vow to show us
How we're for one another
You know how much
I care for all the things you are
I'm so devoted to you
Show me the way
To make you feel right
Never hesitate
To give some room for me
Show me the way
Into your heart tonight
And I'll be there for you
My love...girl, anytime
If you'll just close your eyes
And maybe realize
We're runnin' around, losin' ground
Leaving your cares behind
But life's full of uncertainties
Stress in big quantities
We make mistakes, losin' our faith
But babe it's never too late
If we just focus to live and love
We will conquer the pain
And have everything to gain
Show me the way
To make you feel right
Never hesitate

To give some room for me
Show me the way
Into your heart tonight
And I'll be there for you
My love...girl, anytime
If you care, if you're aware
I'm pourin' myself on you
If you dare this love we'll share
Send away the blues babe
Big inside my heart
There's just one name, it's you
Babe babe, babe
(Just show me the way)
RAP:
Uhh uhh uhh uhh
Come on baby
Just show me the way
U gotta give me some direction once a while in a day
I can't do this alone-ac
