I, I long for the moment
When I see you again
I long to touch and stroke your hair again
Though my heart goes on beating not knowing when

I, I wait for the time
I feel your hair once more through these hands of mine
My heart will sing, you know I will soar
Just like before, just like before

Chorus:
Until then
All I'll have is just a memory of you
That I could hold on to
Until then
All I'll have is just this space and time
To wait and think of you
Coz you'll be on my mind
Until then (until then)

I, I wait for the time
I feel your hair once more through these hands of mine
I know that someday, you'll come back and stay

We'll be together once more
Just like before

Until then
All I'll have is just a memory of you
That I could hold on to
Until then
All I'll have is just this space and time
To wait and think of you
Coz you'll be on my mind
Until then...

Bridge:
I long for the moment
I long for the time
I'll take all my chances
Until you are mine

All I'll have is just a memory
That I could hold on to
Until then
All I'll have is just this space and time
To wait and think of you
Coz you'll be on my mind...
Until then...
Until then...
