Look around what do you find  
People all looking fo peace of mind  
Where they're looking, do you think they'll ever find  
What they're looking for  
When they want some more  
Let me take you on a funky ride  
So you can do your job  
And see with your eyes  
What the world's gotta give  
And how you gotta be  
How you gotta walk the talk for all to see

No need to look any further  
Exposed yet undercover  
Deceived to believe they've got it all together  
Then boom, it takes control  
Then boom, then what, the sun comes down  
Then boom, the means all of the means  
Have vanished  
It's famished  
It's a setback, step back, forward  
All the way back

[Chorus 1]  
When you're out on the floor  
Just get down n' get movin'  
Across the floor and shake it off  
I say, shake it off  
(Repeat)

[Chorus 2]  
Shake it  
Shake it off  
And shake  
And shake it off  
And shake, shake, shake it off  
And shake, shake it off  
(Repeat)

It's a mindset!  
Strap yourself in  
Ready for the roller coaster ride

Take you on the other side  
Ready to see the broad horizon,  
Where the sun will rise and  
You can go against the flow  
And be one of those who's in the know  
Of the truth in the word that says to you,  
You can do all things when He's in you,  
Let go of the extra cargo  
Time to get up and grow, bro  
Stand up, stand firm, stand strong  
Don't sit out and wait too long  
Watch out now, the enemy is like  
A lion waiting for the opportunity to lie

[Repeat Chorus 1 & 2]

[Repeat Chorus]

(Shake it) I'm gonna hurt so bad,  
So many other questions in your head  
We're movin' closer to makin' it look right  
Maybe it's time to trust, give it up, yeah  
Now let me take your hand, yeah  
We'll try to separate questions in your head  
Just move it closer to makin' it look right  
Thinkin' you can find what you know you've been after

(Shake it now, all you guys, come on shake it! Oh yeah  
just shakin' it,  
Other side, other side, other side now! )  
Shake it off, your mind, your heart, your body, and  
your soul now!

[Repeat Chorus 2]

[Repeat Chorus 1]

Woo! Ugh!
