I know this really isn't you
I know your heart is somewhere else
I'll do anything I can
To help you break out of this spell
I see you following the crowd
I know you're trying to fit in
But if you're gonna find yourself
You gotta start from deep, deep within

Hold on to what you believe

I will always be your friend
I know who you are inside
I am with you till the end
Never far behind
I am standing in the distance
You can take your time
And I will be here waiting
Never far behind
Yeah, never far behind

I am sending you a message
Don't ever think that it's too late
When you care about someone
There is always room for change
You're allowed to make mistakes
It's a part of every life
I don't see you any different
The truth is shining in your eyes

Hold on to what you believe

I will always be your friend
I know who you are inside
I am with you till the end
Never far behind
I am standing in the distance (in the distance)
You can take you're time (I'll be waiting)
And I will be here waiting
Never far behind
Yeah, never far behind

Na, na, na, na, na, na, na, na
Na, na, na, na, na, na, na, na
You can take your time
Na, na, na, na, na, na, na, na
Na, na, na, na, na, na, na, na
And I know with all my heart

I will always be your friend
I know who you are inside
I am with you till the end
Never far behind
I am standing in the distance (in the distance)
You can take your time
And I will be here waiting
Waiting by my side

God is never far behind

I am sending you a message
