"Protecting Me"

You're always there for me
Right when I need you most
Day and night, you're by my side
Protecting me

When I feel like crashing down
You seem to be around
There you are, you're not that far
'Cuz...

Whenever, wherever, baby
You'll protect me no matter what
You'll hold me tight, with all your might
And...
You'll never let - let me go

And when it's my turn (my turn)
To help you out
I'll gladly lift you up
Without a doubt
'Cuz...

Whenever, wherever, baby
You'll protect me no matter what
You'll hold me tight, with all your might
And...
You'll never let - let me go
Whoa... Protecting me
