Born in February you were always very shy as a child
It made your family worry because somehow you were
very very wild

Water sign. forever changing in your mind
Water sign. will you find the time to settle down

You keep on moving
You keep on moving

Your friends were never sure if they could rely on
everything you say
No one found a cure because your fickle life was too
much for their head

Water sign. forever changing in your mind
Water sign. will you find the time to settle down

You keep on moving
You keep on You keep on moving

Water sign. forever changing in your mind
Water sign. will you find the time to settle down

You keep on moving
You keep on moving

I passed through your life but I could never hold on to
you
You left my head confused because I loved you and
knew you'd never stay

Water sign. forever changing in your mind
Water sign. will you find the time to settle down

You keep on moving
You keep on moving
You keep on moving
You keep on You keep You keep on moving
