Looking over all the angles  
Obvious that some ain't right  
Litter the recycle bin with  
All the things I'll change tonight

Well that's not wrong, its merely lame  
There's no need to hide my shame  
Well I'm tired of slowly sinking  
Still there's no one else to blame

I can't help it I'm a quitter  
From inside I'm cold and bitter  
Always out an unbeliever  
We're not floating in the ether

Sick of the illusion that  
It's sad to ever want to know  
Taking off and sputtering  
Whenever it was time to go

Well it's not my fault, I'll never try  
I can't even tell you why  
Well I thought I heard you calling  
From the corner of my eye

I can't help it I'm a quitter  
From inside I'm cold and bitter  
Always out and in denial  
Laying wreaths and Spanish tile

I'm not scared I'm only nervous  
When chocolate shakes and power surges  
Stephen hawking can't know either  
We're not floating in the ether

It's not my fault, I'll never try  
Well I can't even tell you why  
Well I thought I heard you calling  
From the corner of my eye

I can't help it I'm a quitter  
From inside I'm cold and bitter

Always out and in denial  
Laying wreaths and Spanish tile

I'm not scared I'm only nervous  
When chocolate shakes and power surges  
Stephen hawking can't know either  
We're not floating in the ether

Always out and in denial  
Laying wreaths and Spanish tile  
Stephen hawking can't know either  
We're not floating in the ether
