Hey man, the sun rises in horizons  
In a new dimension of time  
The clock ticks like a pulsar drop beat  
Our planet is out of it's orbit

[Ref:]

Our journey starts as we leave our planet,  
A forth dimension, an eclipse of time  
Let the planet rest in cosmic sleep  
As we crown us kings in a power stream.

Sucked up in the power vacuum

Loaded in negative energy,  
The fourth dimension is our home  
And the we black sun that we now obey.

[Ref:]

Our journey starts as we leave our planet,  
A forth dimension, an eclipse of time  
Let the planet rest in cosmic sleep  
As we crown us kings in a power stream.

Vivid void, vivid void.....
