Look at me, when I talk to you
My eyes can't bear the sight
Oh, eyes so brilliant, it pains my heart
But I can make you disappear
I can make you disappear
I can make you disappear if I try
If I try hard enough
I can make myself believe
Maybe I can convince you
Oh no
That I can convince me, yeah
And I can make you disappear
I can make you disappear
I can make you disappear if I try
If I try hard enough
I can make myself believe in almost anything
If I try hard enough
I can make myself believe in almost anything
I can make you disappear
