What on earth can atone
For all the wrong I've done?
Oh god
From the depths, from the depths
I cry out your name
I'm sorry
Obliterated
The planets in my mind
Obliterated
The planets in my mind
Obliterated
The planets in my mind
So is it any surprise then
The things I've done with my hands?
Is it any surprise then
The things I've done with my hands?
So is any surprise then
I've been obliterated
The planets in my mind
Obliterated
The planets in my mind
Obliterated
The planets in my mind
So is it any surprise then
The things I've done with my hands?
So is it any surprise then
The things I've done with my hands?
So is it any surprise then
The things I've done with my hands?
