The screams are not yours  
the speech is not yours  
Ancestors speak with your mouth  
They are not buried underground  
But live in the trees, the wind...The Will!!

You are not one  
And your body is not full of demons  
But full of warriors, Soldiers  
Body & Blood is past, present, future  
And when you sleep the graves open inside your  
memory

"We are not Gone! Surpass Us!"

Make your screams speech of knowledge  
Enlight the dark blood of our Forefathers  
You are not one! You are not one!  
Sense them, enlight their unger, follow the path  
And give the son Command  
To be greater than you are
